Discussion with respect to the above-noted results can be found in the Company's MD&A.

1 – Adjusted EBITDA is an unaudited non-GAAP measure and does not have any standardized meaning prescribed under IFRS and, therefore, may not be comparable to similar measures employed by other reporting issuers. Management believes Adjusted EBITDA provides meaningful information with respect to the financial performance and value of the Company, as items that may obscure the underlying trends in the business' performance are excluded. Adjusted EBITDA is defined and calculated by the Company as earnings (loss) before interest, taxes, depreciation/amortization of property and equipment, intangible assets and right-of-use assets, share-based compensation expense, foreign exchange gains (losses) recorded through profit and loss, impairment losses and other costs or income that are: (i) non-operating; (ii) non-recurring; and/or (iii) are related to strategic initiatives. The Company classifies income or costs as non-recurring if income or costs similar in nature are not reasonably expected to occur within the next two years nor have occurred during the prior two years, and such costs are significant.

### **Forward-Looking Information**

This news release contains certain forward-looking statements and forward-looking information (collectively, “forward-looking information”) which reflect the expectations of management regarding the Company’s future growth, financial performance and objectives and the Company’s strategic initiatives, plans, business prospects and opportunities. These forward-looking statements reflect management’s current expectations regarding future events and the Company’s financial and operating performance and speak only as of the date of this press release. By their very nature, forward-looking statements require management to make assumptions and involve significant risks and uncertainties, should not be read as guarantees of future events, performance or results, and give rise to the possibility that management’s predictions, forecasts, projections, expectations or conclusions will not prove to be accurate, that the assumptions may not be correct and that the Company’s future growth, financial performance and objectives and the Company’s strategic initiatives, plans, business prospects and opportunities, including the duration, impact of and recovery from the COVID-19 pandemic, will not occur or be achieved. Any information contained herein that is not based on historical facts may be deemed to constitute forward-looking information within the meaning of Canadian and United States securities laws. Forward-looking information may be based on expectations, estimates and projections as at the date of this news release, and may be identified by the words “may”, “would”, “could”, “should”, “will”, “intend”, “plan”, “anticipate”, “believe”, “estimate”, “expect” or similar expressions. Forward-looking information may include but is not limited to the anticipated financial performance of the Company and other events or conditions that may occur in the future. Investors are cautioned that forward-looking information is not based on historical facts but instead reflects estimates or projections concerning future results or events based on the opinions, assumptions and estimates of management considered reasonable at the date the information is provided. Although the Company believes that the expectations reflected in such forward-looking information are reasonable, such information involves risks and uncertainties, and undue reliance should not be placed on such information, as unknown or unpredictable factors could have material adverse effects on future results, performance, or achievements of the Company. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking information include but are not limited to: additional costs related to acquisitions, integration of acquired businesses, and implementation of new products; changing global financial conditions, especially in light of the COVID-19 global pandemic; reliance on specific key employees and customers to maintain business operations; competition within the Company’s industry; a risk in technological failure, failure to implement technological upgrades, or failure to implement new technological products in accordance with expected timelines; changing market conditions related to defaulted mortgage loans, and the failure of clients to send foreclosure and bankruptcy referrals in volumes similar to those prior to the COVID-19 global pandemic;
